

hello

I'm a young **Graphic Design & Illustrator** based in Lisbon, Portugal.

I can see design in everything that surrounds me and I'm very motivated. Highly creative and imaginative, I love to find inspiration on everyday things, follow trends and give them my own spin.

Finding myself thinking outside the box most of the time, I try to find innovative ways to communicate with a clean and effective design.

Being a self-taught digital artist, makes me well round in most painting and editing softwares, but also being a traditional artist also gives me the opportunity to view the world in another perspective.

I'm team-oriented, but can also make decision on my own if need be. I'm driven, and sometimes stubborn, but mostly I'm just hard working. I'm very versatile and able to adapt in a high pressure environment.

hire me!
